

rocr::AddrGetMacroModelIndex

```
graph LR; A[rocr::AddrGetMacroModelIndex] --> B[rocr::Addr::V1::Lib::GetMacroModelIndex]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'rocr::AddrGetMacroModelIndex'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'rocr::Addr::V1::Lib::GetMacroModelIndex'.

rocr::Addr::V1::Lib
::GetMacroModelIndex
