

rocr::Addr::V1::SiLib
::HwIComputeXmaskCoordFromAddr

```
graph LR; A[rocr::Addr::V1::SiLib  
::HwIComputeXmaskCoordFromAddr] --> B[rocr::Addr::V1::SiLib  
::ComputeTileCoordFromPipeAnd  
ElemIdx];
```

A diagram showing a function call. A white rectangular box on the left contains the text 'rocr::Addr::V1::SiLib' and '::HwIComputeXmaskCoordFromAddr'. A blue arrow points from the right side of this box to a grey rectangular box on the right. The grey box contains the text 'rocr::Addr::V1::SiLib', '::ComputeTileCoordFromPipeAnd', and 'ElemIdx'.

rocr::Addr::V1::SiLib
::ComputeTileCoordFromPipeAnd
ElemIdx
