The diagram illustrates a mapping or dependency between three functions. On the left, two source functions are listed in white boxes: 'rocr::Addr::V2::Gfx11Lib::HwlComputeNonBlockCompressedView' (top) and 'rocr::Addr::V2::Gfx11Lib::HwlGetPreferredSurfaceSetting' (bottom). On the right, a target function 'rocr::Addr::V2::Gfx11Lib::HwlComputeSurfaceInfoLinear' is shown in a grey box. Two blue arrows point from the source functions to the target function, indicating that both source functions are related to or mapped to the target function.
