

rocr::SimpleHeap::alloc

```
graph LR; A[rocr::SimpleHeap::alloc] --> B[rocr::SimpleHeap::makeFragment]
```

A diagram showing a call from the `rocr::SimpleHeap::alloc` function to the `rocr::SimpleHeap::makeFragment` function. The `alloc` function is represented by a white box with a black border, and the `makeFragment` function is represented by a gray box with a black border. A blue arrow points from the `alloc` box to the `makeFragment` box.

rocr::SimpleHeap::makeFragment
