

rocr::SimpleHeap::alloc

```
graph LR; A[rocr::SimpleHeap::alloc] --> B[rocr::SimpleHeap::setUsed]
```

A diagram showing a call from the `rocr::SimpleHeap::alloc` function to the `rocr::SimpleHeap::setUsed` function. The `alloc` function is represented by a white box with a black border, and the `setUsed` function is represented by a gray box with a black border. A blue arrow points from the right side of the `alloc` box to the left side of the `setUsed` box.

rocr::SimpleHeap::setUsed
