

rocr::amd::elf::GElfNote
Section::offset

```
graph LR; A[rocr::amd::elf::GElfNote  
Section::offset] --> B[rocr::amd::elf::GElfSection  
::offset]
```

A diagram showing a pointer relationship between two C++ classes. On the left is a gray rectangular box containing the text 'rocr::amd::elf::GElfNote' and 'Section::offset' on two lines. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'rocr::amd::elf::GElfSection' and '::offset' on two lines.

rocr::amd::elf::GElfSection
::offset
