

rocr::amd::elf::GElfRelocation
Section::type

```
graph LR; A[rocr::amd::elf::GElfRelocation  
Section::type] --> B[rocr::amd::elf::GElfSection  
::type]
```

A diagram showing a relationship between two types. On the left is a gray rectangular box containing the text 'rocr::amd::elf::GElfRelocation' and 'Section::type' on two lines. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'rocr::amd::elf::GElfSection' and '::type' on two lines.
