

rocr::amd::elf::Symbol

```
graph BT; GElfSymbol[rocr::amd::elf::GElfSymbol] --> Symbol[rocr::amd::elf::Symbol];
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a white box labeled 'rocr::amd::elf::GElfSymbol'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'rocr::amd::elf::Symbol'. This indicates that 'rocr::amd::elf::GElfSymbol' inherits from 'rocr::amd::elf::Symbol'.
