

```
rocr::amd::hsa::loader  
::LoadedCodeObjectImpl  
::IterateLoadedSegments
```

```
graph LR; A["rocr::amd::hsa::loader  
::LoadedCodeObjectImpl  
::IterateLoadedSegments"] --> B["rocr::amd::hsa::loader  
::LoadedSegment::Handle"]
```

A diagram showing a call from a loader to a handle. On the left, a gray box contains the text 'rocr::amd::hsa::loader', '::LoadedCodeObjectImpl', and '::IterateLoadedSegments'. A blue arrow points from this box to a white box on the right. The white box contains the text 'rocr::amd::hsa::loader' and '::LoadedSegment::Handle'.

```
rocr::amd::hsa::loader  
::LoadedSegment::Handle
```
