

rocr::amd::hsa::code
::AmdHsaCode::HsaDataSection

rocr::amd::hsa::code
::AmdHsaCode::InitHsaSection
Segment

rocr::amd::hsa::AmdHsaElf
SectionSegment

```
graph LR; A[rocr::amd::hsa::code::AmdHsaCode::HsaDataSection] --> C[rocr::amd::hsa::AmdHsaElfSectionSegment]; B[rocr::amd::hsa::code::AmdHsaCode::InitHsaSectionSegment] --> C;
```

The diagram illustrates a relationship where two distinct code sections or initialization functions on the left converge into a single elf section segment on the right. The left side contains two white rectangular boxes, each with a black border. The top box contains the text 'rocr::amd::hsa::code::AmdHsaCode::HsaDataSection' and the bottom box contains 'rocr::amd::hsa::code::AmdHsaCode::InitHsaSectionSegment'. On the right side, there is a single gray rectangular box with a black border containing the text 'rocr::amd::hsa::AmdHsaElfSectionSegment'. Two blue arrows originate from the right side of the top-left box and the right side of the bottom-left box, both pointing towards the left side of the gray box on the right.
