::AmdHsaCode::InitHsaSection
Segment

rocr::amd::hsa::IsAmdHsa
ElfSectionROData

```
graph LR; A["rocr::amd::hsa::code  
::AmdHsaCode::HsaDataSection"] --> C["rocr::amd::hsa::IsAmdHsa  
ElfSectionROData"]; B["rocr::amd::hsa::code  
::AmdHsaCode::InitHsaSection  
Segment"] --> C;
```

The diagram illustrates a relationship between two source code elements and a target code element. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'rocr::amd::hsa::code' followed by '::AmdHsaCode::HsaDataSection' on the next line. The bottom box contains 'rocr::amd::hsa::code' followed by '::AmdHsaCode::InitHsaSection' and 'Segment' on the next two lines. On the right, there is a gray rectangular box with a black border containing the text 'rocr::amd::hsa::IsAmdHsa' followed by 'ElfSectionROData' on the next line. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating a mapping or relationship from the source elements to the target element.
